

ARC FLASH SAFETY TRAINING

Date: September 21, 2017
Time: 8:00 AM til 12 Noon
Location: TFD Training Division
Classroom #2
2964 Municipal Way
Tallahassee, FL 32304

Speaker: Martin R. Perrone, CTR
Director of Electrical Safety & Code Compliance
Carpenter Electric, Inc. EC0001273
FL. State Fire College CEU # 51980

6 Steps To Becoming NFPA 70E & OSHA Compliant

The NFPA 70E contains six specific safety measures as required by OSHA to be accomplished “within a reasonable period of time” before a business/building owner can become Arc Flash Compliant. The new final ruling of OSHA 29 CFR 1910.269 was finalized on April 14, 2014 and became law on July 10, 2014. This informative four (4) hour program demonstrates why OSHA considers ARC FLASH such a huge priority and provides everything Fire Marshals, Inspectors and Rescue Personnel need to know.

- Learn National Government Safety Regulations that were designed to help you protect your buildings, employees, vendors and clients from a Deadly Arc Flash Explosion.
- Learn specific Life-Safety practices, and procedures Host Employers, Contract Employers, FFMIA members must follow and document in order to Limit Their Financial Liability.
- Learn the step that must be taken to ensure commercial business/building owners never experience a lengthy, costly and potentially deadly electrical fire and/or business interruption. The information contained in this 4 hour CEU seminar helps Fire Marshals; Fire Inspectors & Fire Rescue Personnel recognize the symptoms of an arc flash victim and what needs to be done to treat their injuries.

*Martin is a graduate of Sandler Sales Institute; a veteran trainer of “PSS” by Xerox, excelled at Wilson Learning’s **Managing Interpersonal Relationships** and achieved a 4.0 grade average over 4 years of **“Industrial Inside Wiring”** technical training.*

*In 2012 Martin was trained as a **“Certified TEGG Representative”** for Carpenter Electric in West Palm Beach, FL and as such he conducts Arc Flash Safety Training for a wide variety of industrial, commercial, government and healthcare facility managers.*

TEGG is a world-wide respected franchisor who trains and certifies electricians, operations personnel and contractor representatives who provide unique and proven guaranteed Predictive & Proactive Preventive Maintenance solutions to electrical contractors around the Globe.

Since 2012 Martin has conducted Arc Flash Safety Training programs for such companies, groups and organizations as; BOMA, OSHA, AHCA, Broward County Fire Inspectors Association, PB State Collage Fire Academy, Florida Fire College, Florida Health Care Engineering Assoc., Stiles Property Management, CBRE and the PB Safety Council.
